## MITRE SAW 1650W - POWE50001

Make perfect cross, mitre and bevel cuts with this 1650W mitre saw. Its Ø210mm saw blade cuts wood, coated panels and plastics up to 120mm in width and 60mm in depth. The POWE50001 has a strong aluminium base and is delivered with a clamp to easily fix your workpiece in place for extra accuracy.

You can turn the table (mitre cuts) and tilt the saw head (bevel cuts) from 0° to 45°. An accurate scale allows you to choose the right vertical and horizontal angle.

The dust bag captures the sawdust and guarantees a clear view on your workpiece. Saw blade and extension bars are included.
